He stated that usually if there is any opposition regarding RV's he usually denies the application.

Mrs. Laura Courier, neighboring property owner, stated that she is under the impression that no businesses are allowed in the area. She also stated that she is under the impression that the owner, Mr. Bonzo, wants to make an RV park on the property.

Neighboring property owner, Luis Dikes stated that they already have problems in that area with ATV's and Four-Wheelers and thinks that if the owner is allowed to put an RV park on the property this would host more similar problems in the area.

Commissioner Hatch stated that the application is for just one single RV and if the owner tries to put more onto the property the County would tell the owner that he had to remove them.

Commissioner Osteen stated that he still denies the application for special exemption.

Commissioner Hatch asked if the opposition was still opposing with the understanding that it is just an application for approval of a single Recreation Vehicle (RV).

The opposition stated yes.

The motion was made by Commissioner Osteen to deny the application for Special Exception. Seconded by Commissioner Hatch.

Neighboring property owner, Mrs. Diane VanHook stated that she has spoken to Mr. Birchfield, and he wants to use the property as a hunting camp. She said this property is residential and she doesn't want any hunting to be allowed. She stated that her horse had already been shot by other hunters out in the area and the owner had the property up for sale.

Commissioner Stephenson stated that it will be brought to the Board again at the next Board meeting when the owner can be present.

Mrs. VanHook stated that she works during the day and can't come to the next Board meeting.

Mr. Johnson called Hydro Power for a price quote to get it fixed and was told best case would be \$5,000 dollars, worst case \$18,000 dollars. He said a new John Deere brand new is around \$27,000 dollars. He said to fix the old one it would be around \$2,700 dollars for labor costs, to remove, clean and install the hydraulic tank and pump and around \$700.00 for the filter and seals. He said for 100 gallons of premium hydraulic fluid it would be around \$2,000 dollars. The total best-case scenario would be around \$10,400 dollars to worst case scenario would be around \$23,000 dollars. He said the current pump has about 20,000 hours on it and if they put all this money into it, the pump could still blow up.

Commissioner Stephenson stated there is a place towards Daytona that rebuilds hydraulic pumps for a fraction of the cost of a new pump and recommended to get a quote on rebuilding.

Acting Assignment County Manager Mr. Gainey stated that just to be clear, this is the log loader that loads trash off the trash hill over head into the trash trailer, or otherwise known as the knuckle boom loader. Mr. Johnson said, yes, it is.

He stated that the County is going to get some calls regarding this.

Mr. Wright updated the Board on the Flood Plain Ordinance. He said that a lot has been removed that was considered higher standards not needed at this point and that was just causing the County to have more wright-ups.

He stated that he has met with two (2) County Commissioners and there are three (3) left to sit down with for review of the fees for planning services. He said these fees will be substantially Higher than what the County has been charging. This is somewhat caused by the element of liability.

He reminded the Board that the next ordinance will be regarding wind speeds and be presented for the first reading at the next board meeting. He also said they are moving forward with the Land Development Regulations (LDR) and Code Enforcement Ordinance. He also mentioned that after they develop the new Code Enforcement Ordinance, he recommended the County get a new Special Magistrate.

Commissioner Stephenson asked if the County should repeal the code enforcement cases that Code Enforcement Officer Mr. Freman has filed.

Mr. Wright answered no that he didn't think they needed repealing. Maybe re-evaluating those and separating them out into the code enforcement and land development cases so that there is no question how the violations should be classified. He said this leaves little room for loopholes. He also added that there is no need to repeal these because Mr. Freman has many years of working in the Code Enforcement Department and the violations are legit.

Attorney Watson also brought up a proposed land swap off Rollison Rd in Cross City. She provided maps explaining the area(s) for the swap. She stated there is an agreement that came from the United States of America acting by and through the War Assets Administration and pursuant to the Reorganization Plan of 1947. This was regarding 591 acres of surplus land that was agreed to be given to the County after the war. She reiterated this was not a deed, but an agreement. She said she had prepared a deed to give the blue strip on the map in exchange for the strip of land along the canal.

Commissioner Hatch stated that he wants to look at the survey because there is an important canal that comes from the prison that he doesn't want to deed over.

Attorney Watson stated that based on the document provided there are also a few things she had questions about as well. She also would need to know whether the County wants to process this as a Warranty Deed or a Quick Claim Deed. She explained both to the Board.

She said a Quick Claim Deed would just give ownership rights, but a Warranty Deed would guarantee a good title. She stated that if the County just did a Quick Claim Deed it could come back on the County down the road for us to provide a good title.

Mr. Gainey stated that he thinks this transaction has already been approved and they came up with a proposal to sell the piece of property to the county for \$90,000 and the canal in exchange for the strip and they have been waiting on the survey.

The Board agreed to research this further and come to an agreement.

Attorney Watson stated that she is tracking the lawsuit regarding the ambulance trip and fall, and mediation is scheduled. She said she will bring more on that at the last meeting in April.

23. PUBLIC COMMENTS AND CONCERNS

Mrs. Diane VanHook asked the Board about the status of the Old Town Fire Station.

Mr. Gainey stated there has been a contract awarded to a construction firm for building a red iron metal building, which has already been ordered. He said they are just waiting to get closer to time of arrival before starting site prep work.

Mrs. VanHook asked about Chavous Road stripes and reflectors being removed. She said she thought the County was going to widen the road and then replace the stripes and reflectors, but they haven't replaced them yet.

Mr. Gainey stated the reason is because the County has bid this out three times and the first time all bids were way over budget, then the next two times there were no bids. He said the County reduced the scope of work from 5ft paved shoulders down to 3ft hoping to get responsive bids that would come within budget. He said the County is in discussion with the Department of Transportation (DOT) on how to move forward.

Mrs. VanHook asked if the County could get the lines done at least temporary because she is scared to death to drive it at night. She stated it is hard to see where you are going.

Mrs. VanHook also asked about the status of the Old Thompson Road repairs. She said that there were big chunks taken out and left as dirt and when it rains, it makes big potholes.

Mr. Gainey informed the Board that Mrs. VanHook is speaking of where buried stumps were cut out of the road and the holes repacked in hopes of paving it when 305 is paved to get a good deal.

Commissioner Stephenson recommended adding milling or patching the road for now until the County gets money for paving.

Commissioner Wood said he would get Road Department Employee Mikel Gainey (Monk) to look at it.

Karen VanAernam of Cross City Restore and Renew reminded everyone of the Cleanup scheduled for March 30th. She said they will meet at City Hall and go throughout the County. She also thanked the County for their support with the freshly updated and improved Dixie County welcome signs.
